

# Description

---

Confidently seize the day knowing the HyperFast processor will help you power through presentations, stream content and edit home videos easily. Use Super-Fast Charging 3.0 to stay connected longer with all-day power<sup>1</sup>. Enjoy increased productivity with seamless access to all your Note 10+ apps, documents, presentations and more on your compatible PC<sup>2</sup> or Mac OS<sup>3</sup> using DeX Live. Use the Intelligent S Pen with new features such as Gestures to take photos, rotate and crop images, or click through your presentations. Empower your creative side and record cinematic video using the new DepthVision Lens, with the option to add background blur to your videos for extra emphasis. The incredible Audio Zoom feature lets you capture rich sound in your videos as you zoom in. This powerful device comes in a slim design with our largest Note screen, a beautiful 6.8" Dynamic AMOLED Infinity-O Display. The edge-to-edge screen provides an immersive visual experience, so you can do more with less interruption.
